What is our Women's Service?

Located in East Perth, this service provides transitional accommodation for approximately three months while you are actively seeking to secure a long-term solution.

Throughout your tenancy with St Bart's you must engage with our case management process to help you explore suitable, long-term options.

Our female only accommodation offers single rooms with access to private or shared bathrooms, common cooking areas and a laundry.

You will have regular access to a case manager who will work with you develop your individual recovery plan.

We also offer a range of support, referrals and other services that help you improve your personal health and wellbeing, with a view to reconnect you with friends and family where possible.
